This book is intentionally short. I want you to be able to read it over and over. Every time you realise you are in a slump and going back to bad habits I urge you to read it again.

This book explores the fundamental building blocks to becoming wealthy.

Its not a get rich quick scheme, its a build lasting wealth scheme. In this book I explore lessons that I learned years ago. We will explore how you can change your entire attitude to wealth building and for important habits necessary to acquire and keep more money.

One day, a very long time ago a man wondered how he can become rich. Peter, as was his name, worked every day, he worked hard I might add. However in all his hard work he was never able to build wealth. Like his father before him and his father's father he worked hard, dreaming of the day he would be able to afford anything he wanted. Today in particular he was determined to find out the secret!

.....At that moment Sam said the wisest thing he ever said. "Our friend from school Bill was once in our position but is now the wealthiest man in Trinidad and Tobago. Lets go see him and ask his secret". If you want to learn plumbing go learn from a plumber, if you want to gather wealth then seek advise from a wealthy man. Luckily for Peter and Sam they grew up with a man who's now wealthy and he wouldn't mind sharing his knowledge.
