## **This book is here to give you pointers and advice on how to make that guy you like want you!**

Do's and Don'ts of getting his attention

*Introduction* From a young age we are fed the fact that there is one magical person out there that will give us butterflies and fireworks. True love sells, and it feels amazing. Unlike many of the movies it doesn't always go smoothly. Sometimes we find that one amazing guy and he's just not that into us, or he's just not interested. Unrequited love sucks, we all know that feeling; but it doesn't have to be that way. You are special, amazing, and wonderful – he just needs to see it. So by now you've probably tried a few things, Cher in *Clueless* did it all – chocolates, “dates”, outfits, moves with no luck. We all strike out sometimes and honestly it's more common than you might realize. Since every man is different you have to start with understanding him and what he wants. Sometimes it's as simple as asking why, while other times it can be a little more complicated than that. Often the attraction is there but the relationship isn't, so if you want it to last you've got to start by nurturing the roots of who you are if you plan on getting him to fall hopelessly in love with you.
