This 8.5\*11 inches book contains plenty of pictures of shapes for your Little Artist. For example, in case of circle you will find not just one circle to colour but numerous circles of various sizes. To become familiar with shapes the kids needs more practice and this need has been taken into account. There are over 30 pages full of shapes to colour. Always make sure you tell the name of the shape to your toddler. Ask them to colour a circle or square for you to make them more involved in colouring instead of mechanically filling the colours. Certain pics of shapes are given in colours so that the parent/caretaker can instruct the kid to fill in the particular colour so as to make them familiar with colours too (not just shapes). This book contains neither explanations nor formulae as it is primarily meant for little children.
