## **Balanced and Unbalanced Forces (Science Readers)** Jenna Winterberg

Playing Tug of War, pedaling a bike, jump roping -- these actions all require force! We typically don't notice most of the forces around us, but they surround us all the time. Find out how force works in this fact-filled book! High-interest text paired with colorful images and graphics fill the pages of this book to engage students from cover to cover. Encourage students to apply what they've learned in the text by completing the Think Like a Scientist activity, that supports STEM instruction, included at the end of the book. A helpful glossary, table of contents, and index are also included for additional support.
