The Chicano Studies Reader: An Anthology of Aztlan, 1970-2010

The second edition of the *Chicano Studies Reader* brings this best-selling anthology up to date with a new section, "Continuing to Push Boundaries." Five additional essays address current issues, including cross-disciplinary studies, investigations of mass media and public culture, and explorations of the intersection of race, sexuality, and citizenship. These essays correspond to the themes that organize the original set of essays: "Decolonizing the Territory," "Performing Politics," "Configuring Identities, and Remapping the World." The revised edition documents the foundation of Chicano studies, testifies to its broad disciplinary range, and explores its continuing development.
