So, is he the one? Good question, and it's one that you need to be certain of before you commit yourself to a life together. The fact that you have reached the stage in your relationship where you are considering him marriage material is a good sign, but that still doesn't mean that he's the one. Before committing yourself there are lot of things that you have to be certain about, of which the main one has to be, can you live together for what could be decades.

Once you marry the real work in building your relationship begins. The man at your side has to be your equal partner and your friend. You have to be able to work together through the good times and the bad. He has to be there for you, and he has to want to share his life with you.

In my book I look at all the signs and signals that you need to consider before deciding if he's the one.
