Silent Sales Machine 8.0 Jim Cockrum

THIS IS NO LONGER THE MOST RECENT VERSION! PLEASE LOOK FOR "SILENT SALES MACHINE 9.0"

The first few copies of this book were **sold back in 2002 - and as we plow through 2014 it's never been more relevant!**

The book has **been updated eight times** and has re-launched to thousands of eager readers each time. It's never been sold on Amazon in print until now.

So, what's in the book?

Wouldn't it be nice if someone you trusted gave you a detailed list of what business ideas WORK online and which ones sound nice, but are actually dead ends?

Do you have anyone with a decade of proven online success, a track record of actually helping others earn a lot of money, and a spotless reputation who is being THAT honest with you?

I've had multiple people pay me tens of thousands of dollars to learn from me and work with me, and even years later they say things like, "It was the best investment I've ever made".

Thousands pay me monthly to get my advice at one of my two membership websites where I teach what I know about starting and running a hands free successful online business.

Do you have a friend like that in the game?

If not, **you do now.**

I've been that "blunt trusted friend" to tens of thousands of people, and you are next. I've learned my lessons, wasted a lot of money, got suckered by the "big launches" and not only lived to tell about it, but I am thriving with multiple online income streams and I'm willing to share what I know even if it means ticking off some of the "big dogs" in the "guru game".

Some facts that might shock you:

- I estimate that around 95% of EVERYONE who is trying to chase down affiliate income online is FAILING MISERABLY. No matter what they try or which friendly "guru" they follow, these people AREN'T making the money they were promised!
- If you tend to be easily distracted away from stuff that you thought for sure would work out...you aren't alone. I'd estimate that 95% of all online entrepreneurs are suffering from this as well and it's making the "gurus" rich. **It's disgusting.**
- Did you know that **building a website is a HORRIBLE way to start** a business online? Most of my income online is independent of any website(s). Learning to build websites is for **CHUMPS** and **SUCKERS!** (shocked?)
- Did you know that "driving traffic" is an arcane concept that will never bring you success online (unless you are one of the lucky 2-3% with great connections or massive cash to invest)? Instead I teach my

students to go where the traffic already is. It's a simple shift in the way you see the Internet, but failing to do so almost guarantees your failure online.

- Are you aware that Social media is a complete waste of time 99% of the time for 99% of those using it (from a business perspective)? How many hours are you killing on FaceBook and Twitter etc.?

I'm pretty sure you haven't heard stuff like that anywhere else, have you?!

I don't hold back in this book.

In this book I reveal the TRUTH behind many misconceptions and flat out lies that you've been told about succeeding online.

Listen - YOU are not the problem.

The misguided experts with big followings and their big checks that they like to show off are leading you astray with promises they can't deliver on. Their POPULARITY and "friendly/fun" instructions will NOT put cash in your pocket!

Ignore this book at your own peril. It's all that I know from 10 years of MAKING A KILLING online and *teaching thousands of others* how to build something that gets results. I'm talking about a real business, with real results.

You've been warned and challenged.

This book isn't theory, or hype. The ideas in this book have predictably inspired and launched thousands of income streams for the thousands of readers that have downloaded and read it.
