The Anglo-Dutch Moment: Essays on the Glorious Revolution and its World Impact

The Anglo-Dutch Moment: Essays on the Glorious Revolution and its World Impact

Much new research and writing on the Glorious Revolution of 1688-91 in England, Scotland, Ireland and North America, and on the Dutch role in the Revolution, has materialized in the last few years in connection with the tercentenary celebrations of 1988 and 1989 and the various accompanying conferences, symposia, and exhibitions in Britain, the Netherlands and the United States. There has also been a spate of associated publications. This is, however, the first large-scale work to emerge from the tercentenary commemoration, and the first to attempt to bring together the main strands of the new research and writing for the general reader and for the student, placing the English Revolution of 1688-89 for the first time in its full British, European and American setting, and showing how fundamentally our picture of the Revolution itself, as well as the Revolutionary process of 1688-91 as a whole, is now being transformed.
