Personal Immortality by Automatic All-Natural Processes: A Comprehensive Alternative to Supernaturalism and Mysticism Everett Cheney

This all-naturalistic book is offered in response to a growing worldwide need for a new comprehensive alternative to Supernaturalistic Theism. Modern learning and recent religion inspired human world savagery have turned off more people than ever before, from the many traditional Supernaturalistic Theistic Religions. Worldwide, more than a billion people already share all-naturalistic world views and values, but many lack an adequate chart to help navigate the rough and uncertain waters of personal living existence. This book is an effort to provide information to help the interested naturalistic reader formulate such a chart, and in the process, also explain how and why everyone automatically and unconditionally lives forever by forever ongoing all-natural processes. The concept of all things by natural processes that is described and explained in this book, could give some people a whole new understanding of Reality, and change their lives for the better in important ways. And it might also inspire some people to more fully and enthusiastically participate in the celebration of life, and when their end times near, help them make their final peace with the darkness.
