Forget everything you know... about magic...

Jen doesn't know who people keep mistaking her for, but one thing is clear: her mystery double is not popular. When Jen is kidnapped by a group bent on revenge for something she never did, it's up to her friends to rescue her. Little do they know, Jen's captors are ready for them.

Thomas, TS, Charlie, Dani, and Mariana become the latest victims of a malicious experiment, one which could spell doom for magic-kind. Now their lives, and maybe their entire world, are in Jen's hands. Unfortunately, escaping the facility is the least of their problems. The experiment is dangerous; one in three test subjects dies. And considering five of them are affected, the odds don't look good.

Time is running out and Jen and her friends are faced with the hardest decisions they've ever had to make; how do you know who to trust, when your own mother isn't who you thought she was? Just how much will you sacrifice for a friend, even if it's your life?

And how can you make a choice when the wrong one means death?
