Women in Family Business: What Keeps You up at Night? addresses the psychological, relational and financial issues impacting women in family owned businesses: women who want their husbands to retire; mothers who want to treat their children fairly; widows who don't know whether to keep or sell the business; stepmothers who feel like outsiders; daughters who want their fathers' approval; sisters who want the same opportunities as their brothers; and daughters-in-law and sisters-in-law who wanted to be treated with respect. Written by a team of advisors, each of whom has more than two decades of experience consulting for family business, this book informs, entertains and provides those women in the family owned business with survival tools for taking care of themselves and their families.
