"The tragedy of life is not death, but what we let die inside of us while we are still living..." Some time ago, I stumbled across this quote by Norman Cousins – and felt as though it had **slapped me across the face**. Like any thirty-something, questions of my own **mortality** had gradually changed from being an interesting hypothetical to something very **real**, and very **scary**. While the first part of my life had seem filled with **new beginnings and first times**, the second half looked a bit more dire: I was beginning to realize that there would be **last times** for everything, too. And like the typical thirty-something, I had a mild **existential crisis** about it: had I really lived my life well up until that moment? Had I **wasted my youth**, and was I possibly **wasting my life** right this minute? When I saw this quote, it dawned on me: I wasn't actually afraid of death itself. How could I be? After all, I wouldn't be around when it happened. Rather, what I was afraid of was the crushing awareness that **I wasn't living while I actually had the chance**. Living intentionally can be frightening, but it is the foundation of a regret-less, meaningful life. This cannot be emphasized enough: **there is no meaning without intention**. This book will be structured around **three key steps** to cultivating and developing a style of life that is **intentional** and geared towards **deep, personal fulfillment**. I'm sharing these principles with you **not** because I think they are the be all and end all, but because they have been so useful in **my own journey** towards a life that **really means something**.
