Good Gun Bad Guy: Behind the Lies of the Anti-Gun Radical Dan Wos

Go behind the lies of the Anti-Gun Radicals. Find out what they hoped you would never know. The Book by Dan Wos, 2016 If Anti-Gun Radicals put their money where their mouth is they would march through the south side of Chicago with their picket signs demanding that the bad guys hand over their guns. Instead, they rally in the suburbs with the hopes that the media will spread their message in a way that won't put them in any danger. Their mission is to create laws that make it impossible for law-abiding Americans to protect themselves. In the process, they empower the maniacs. Their fear of guns, coupled with misguided radical activism puts everyone in danger... GOOD GUN BAD GUY Looks into the mind of the Anti-Gunner and reveals all the things they hoped you would never find out. Learn the tactics used against gun owners to further the anti-gun agenda and mislead the public.

I've always been fascinated by how people make decisions in life. What causes one person to take a specific action in a certain circumstance, while another person takes a completely different action under the same circumstance. Thoughts trigger actions, but beliefs germinate thoughts. It's a person's beliefs that ultimately create their life path, their viewpoint and where they focus their passion.

This book is for those who believe that personal defense is not only a right but a duty. It's a book written not to boost the morale of Pro-Gunners but to help define the thought process of the Anti-Gunners. Understanding their beliefs will better help us help them see the situation with logic rather than reactive fear or anger.

It would seem that the Constitution is under attack by bureaucrats and others doing everything they can to restrict the ability of good Americans to defend themselves and their families. The support for gun-restrictions by left-wing politicians (including the President) has been fueled by dishonest statistics, misleading rhetoric and unethical media practices. Although it has been a very difficult task defending our rights, real Americans in support of the right to bear arms have come out in droves. It has truly been a patriotic movement and a very proud (yet tedious) fight for those who believe in personal liberty under the stars and stripes.

Many books have been written in support of gun rights and many patriotic celebrities have put their reputations on the line in defense of law-abiding gun owners across this country. I hold great respect and admiration for them.

I have noticed that although the books, movies, and other media that have come out in support of American liberty and gun rights have been necessary, there has been an absence of talk on the topic of the mindset of those who want to take away the rights of the American people. I felt a need to expose the motives and explore the thought process of the radical gun-grabbing "Americans" that walk among us. It's important to understand the motives of those who constantly assault you because it helps in understanding how to defeat them and/or help them. There has never been a stronger need than now to reverse course and re-implement healthy, traditional American values into our society. I hope that we Americans (those who believe in and abide by the Constitution) use this time wisely and take back our country from those who are mistreating, misrepresenting and disrespecting it. Once our rights and liberties are gone, they are gone forever. I know there are millions of people who are not willing to let that happen. To you I write this book."
