Psychophysiological Recording

Robert M. Stern, William J. Ray, Karen S. Quigley

Psychophysiological Recording Robert M. Stern, William J. Ray, Karen S. Quigley

This is a thorough revision of a successful introductory text on psychophysiological recording. The authors include information on the most up-to-date equipment used today to do brain scanning and discuss other equipment not available in 1980. A new chapter on signal processing and analysis has been added, and discussions cover nonlinear systems as well as cognitive psychophysiology.
