The Attraction Blueprint: A Step-by-Step Guide to Manifesting your Desires James Weaver

The law of attraction states—to put it simply—that like attracts like. Our thoughts literally become things through this process of attraction. This natural law of the universe is always working and our current circumstances are a direct result of our past and present thoughts, feelings, beliefs and expectations. Through these thoughts, feelings, beliefs and expectations you have attracted whatever you are currently experiencing. The great problem with this law is that most people do not consciously put it to use to create a more desirable reality. Instead they drift aimlessly with no real direction, and don't seem to understand why they are experiencing a reality that is way short of ideal. Don't be like these people; decide to create a better reality for yourself. This book will give you the knowledge and tools you need to help put the law of attraction to work in your life in a more purposeful way. Using the techniques in this book, you will attract more of what you want, and experience a more peaceful and fulfilled life.

This book also includes a free e-course on the content contained within the book, plus other topics not discussed in the book.
