The Voices

William Osborne Moore

The Voices William Osborne Moore

Over the years, I have read at least 500 books dealing with various aspects of life after death - books on mediumship, near-death experiences, reincarnation, apparitions, death-bed visions, and other paranormal phenomena suggesting that consciousness exists independent of the brain. In addition, I have read parts of another 500 or so books in this general subject area. When a friend recently asked me to name what I consider to be the top five of all those books I have read, I pondered only briefly before telling him that the two books by Vice-Admiral William Osborne Moore - Glimpses of the Next State and The Voices - would definitely be among the top five, possibly even one and two on my list. Both books are filled with amazing phenomena strongly suggesting spirits and, concomitantly, life after death. Michael Tymn Author of The Afterlife Revealed & The Articulate Dead
